

Go with the Flow

Through the [Ebb & Flow River Arts Celebration](#), we're harnessing the power of the arts to: educate folks about our City's most important water source; enliven the RiverWalk – a stunning public park that's there for all of us; inspire new relationships between artists and river stewards; and build artworks that tell stories about our river's past, present, and future.

We need your help! We're looking for volunteers for our grand fête: the **June 3rd Ebb & Flow Kinetic Art Parade and River Arts Celebration**. See below for all the volunteering goodness available to you. Once you've figured out where you'd like to help, here's what you do:
