

# What You Can Do for a Healthier River

- 1 Conserve water by turning off the faucet when brushing teeth.
- 2 Time your shower. Take shorter, 5-minute showers.
- 3 Plant native drought-resistant plants.
- 4 Reduce, reuse, recycle.
- 5 Pick up trash.
- 6 Pick up your pet's poop.
- 7 Make sure only rainwater goes into the storm drain.
- 8 Ask your parents to only wash their car at a car wash.
- 9 Share what you love about the river with a friend.
- 10 Explore the river and share with a friend or family member.

## Draw a Healthy River

Add in birds, plants, bugs and fish that you see.

**Add in yourself!** What will you do to protect the river?
