

Earth Systems Map

Draw a map of the earth systems you see around you.

1 Draw any features that you see around.

- | | | | |
|------------------------------------|----------------------------------|-------------------------------------|---------------------------------------|
| <input type="checkbox"/> Sidewalks | <input type="checkbox"/> Lawns | <input type="checkbox"/> Apartments | <input type="checkbox"/> Parks |
| <input type="checkbox"/> Streets | <input type="checkbox"/> Gardens | <input type="checkbox"/> Houses | <input type="checkbox"/> Storm Drains |

2 Then, label what you drew as being part of one of the earth systems.

- | | | | |
|------------------------------------|------------------------------------|-------------------------------------|--------------------------------------|
| <input type="checkbox"/> Geosphere | <input type="checkbox"/> Biosphere | <input type="checkbox"/> Atmosphere | <input type="checkbox"/> Hydrosphere |
|------------------------------------|------------------------------------|-------------------------------------|--------------------------------------|

Key

Green = Permeable surface

Red = Impermeable surface

 = area where stormwater runoff is likely
